**Project WILD** is an interdisciplinary conservation and environmental curriculum designed for anyone interested in teaching youth about our natural world. Hands-on, inquiry-based activities teach students "how to think, not what to think." Activities also assist in developing problem solving, decision-making, observation, and research skills, and are aligned to state education content standards.

## Who Can Attend:

Teachers, non-formal educators, college students and resource professionals, who want to become certified in Project WILD and receive the Project WILD and Aquatic WILD activity guides, which contain over 600 pages of indoor and outdoor activities that can be used in a variety of educational settings.

## Workshop Participants Receive:

- Certification in Project WILD & Aquatic WILD
- Hands-on instruction from environmental education specialists
- Great Door Prizes!!
- Project WILD and Project WILD Aquatic K-12 Curriculum and Activity Guides
